ON OKINAWA

BY LEIF ERICKSON

Guam, Friday, June 15 (AP)—Doughboys of the American Tenth Army captured the highest point on Okinawa's Yaeju escarpment yesterday, Fleet Adm. Chester W. Nimitz said today.

Lt. Gen. Simon Bolivar Buckner, Jr.'s Tenth Army troops continued their heavy pressure throughout the entire Yaeju defense lines despite strong Japanese resistance.

More than 100 Japanese surrendered on Okinawa peninsula and many others committed hara kari on Okinawa peninsula as the Sixth Marine Division smashed the remains of the enemy pocket there, Nimitz also said.

Landings Unopposed

Elements of the Third Marine amphibious corps, meantime, made unopposed landings on Senaga Island, off the southwest coast of Okinawa peninsula. They captured five Japanese naval guns.

Under heavy mortar, artillery and machinegun fire, Maj. Gen. James L. Bradley's 96th Infantry Division, in the center of the

RUN RAINS ON OSAKA

Guam, Friday, June 15 (AP)—Bombs at a rate of 2,000,000 tons a year will begin raining down on Japan July 1 in a program aimed at "complete and utter destruction" of the enemy, Gen. H. H. Arnold, commander of the Army Air Force, announced today.

The five-star general dramatically disclosed that while he was making the announcement, 3,000 tons of bombs were falling on Osaka, the leading city of the Orient, from 520 Superfortresses.

"We are going to more than double the tonnage we are going to drop on Japan, starting July 1," Arnold added at a press conference.

Yaeju line, captured Yaeju-Dake hill, 600 yards southwest of Tomei town, and moved up to the south-east of Ozato town.

(Yaeju hill presumably was the highest in the escarpment, whose highest plateau is a little more than 500 feet.)

On the southeastern coast, the Seventh Infantry Division gained 300 to 700 yards to reach the center of Mazaka town. Resistance there was moderate to heavy.

On the southwestern coast, the first Marine Division attacked before dawn and gained 600 to 800 yards to widen its front on Kunishi ridge, western anchor of the escarpment fortifications.

Caves Cleaned Out

Heavy resistance developed around the ridge after daylight. Ground action throughout the front was supported strongly by aircraft from Marine air corps groups Nos. 31, 33 and 22.

Maj. Gen. Lemuel C. Shepherd, Jr.'s Sixth Marine Division continued its mopping up operations on Okinawa peninsula, where it had broken up a strong Japanese pocket Wednesday. The Marines still had a number of isolated pillboxes and caves to clean out, however.

The Senaga Island landings were made to wipe out a naval battery which had harassed Marine operations on Okinawa and along

Small Nations
Haggling Over
Peace Charter

BY DOUGLAS B. CORNELL

San Francisco, June 14 (AP)—Little nations at the United Nations conference held out today for easy amendment of a world charter in the future or, failing that, the right to withdraw at any time from a new international league.

They want one or the other as protection, now that the Big Five—The United States, Russia, Britain, China and France—have clinched their control over the prospective world organization and the right to veto peace-enforcement steps.

A delegate from one of the lesser powers put it this way:

"As the charter is now set up, there seems to be no way open to modify the veto in years to come, particularly since the Big Five also want to control any revisionary meeting which may be called in the future. We feel that if the Big Five plan to keep their veto power indefinitely, we will want to get out of the world organization."

With the exception of Russia, the Big Five now are against putting a specific withdrawal clause in the charter and all are insisting the veto must apply to revision of the charter in later years.

These issues arose in conference committees, but a hunt was on for compromises.

The conference was operating under a new timetable calling for committees to finish their reports by tomorrow night, and a rapid round of public commission sessions over the weekend and early next week, with the signing of the charter set for no later than June 23.

VOTE ON STRIKE
SOUGHT BY UAWAutomobile Industry
Threatened With
General Tieup

Detroit, June 14 (AP)—Rank and file leaders of the United Automobile Workers (CIO) petitioned the National Labor Relations Board today for an industry-wide strike vote.

Unionists representing more than 400,000 UAW-CIO Workers voted by a 5 to 1 margin in favor of the petition, which would call for a strike vote "in all UAW-CIO plants."

Considered tantamount to a threat of an automobile industry-wide strike, the vote was taken at a conference of more than 600 officers of local unions in this area.

Unionists said the purpose of the strike vote was to force recognition of union demands they include a 30-hour work week without loss of take-home pay and upward revision of the Little Steel Formula.

International union officers called the meeting following a request for a conference by local union presidents.

Amid a boisterous demonstration, delegates overruled Richard T. Leonard, regional director, who held the motion calling for a strike vote was out of order.

President R. J. Thomas pleaded against striking at this time. "Don't be rabble-roused into a strike at this time," the union president declared.

"It would be bad for all the locals and would not solve our problem," he added.

Three Mile Gain
Made By Yanks In
Luzon Mountains

BY RUSSELL BRINES

Manilla, Friday, June 15 (AP)—U. S. troops scored a three-mile advance Wednesday through northern Luzon's mountains, Gen. Douglas MacArthur announced today, placing them two miles from the entrance to Cagayan valley, where the biggest enemy force still at large in the islands is believed to be deployed.

The 33rd Infantry Division was only six miles from the isolated enemy supply base on Bokod after overrunning the towns of Tabio and Ambuklao. Bokod is 18 miles northeast of the summer capital of Baguio.

Supplementing wide-spread air strikes at enemy supply lines throughout the area, shore raiders landed at night on Sangihe island, south of Mindanao, blew up six large warehouses, destroyed a number of watercraft and withdrew without loss, MacArthur's communique said.

Mopping-up operations proceeded on Mindanao itself while minor gains were scored north-west of Davao port.

Reds To Try 16 Polish
Leaders For Terrorism

BY JAMES F. KING

London, June 14 (AP)—Russia announced tonight that 16 Polish leaders would be tried within the next few days for "terroristic acts of diversion" behind Red army lines.

The announcement came on the eve of a conference scheduled to open in the Russian capital tomorrow among representatives of the big three and various Polish factions for the purpose of organizing a broader-based Polish provisional government.

At least one of the Poles invited to the meeting, former Premier Stanislaw Mikolajczyk, a leader of the peasant party, had been reported by the British press to be prepared to demand the release of the 16 accused Poles as a condition to participating in the parley.

Russia announced on May 6 that she had arrested the Polish leaders, creating a storm in international relations and leading to a breakdown in big three negotiations on broadening the Polish government. Earlier this week the Paris radio reported that Harry Hopkins, President Truman's special emissary to Moscow, had effected the release of the group.

Moscow for the first time identified four of the arrested group in tonight's broadcast announcement: They were Jan Jankowski, vice premier of the London Polish government-in-exile, Gen. Bronislaw Okulicki, former Polish underground army leader; Stanislaw Jasiukowicz, former parliament National party representative, and Adam Bien, peasant party member and former Warsaw judge.

Soon after announcement of the arrests early last month Foreign Secretary Eden of Britain characterized the group as "nearly all

the leading figures of the Polish underground movement." Many of the 16 seized, he said, were persons the British thought should be included in a new, democratic Polish government.

Only a few hours before the Moscow broadcast, Prime Minister Churchill had brought cheers in the house of commons with the assertion that "our relations with Russia have undergone marked improvement in the past week or so, because one difficult matter connected with Poland has already been settled." Churchill was referring to the invitation to Polish leaders to visit Moscow.

CHARTER ACTION
TO BE SPEEDEDTruman Seeks Approval
By Senate Before
Big 3 Meeting

Washington, June 14 (AP)—Soon after the world organization charter is signed in San Francisco, President Truman will fly it to Washington in the hope the senate will ratify it before he meets next month with Marshal Stalin and Prime Minister Churchill.

The White House made this disclosure today along with plans to expand the president's ambitious flight schedule to include homecoming celebrations late this month in his home state of Missouri.

The Truman welcoming rallies will be held in his home town of Independence June 27 and in Kansas City the next day.

Charles C. Ross, White House press secretary, told reporters the president will fly the San Francisco charter to Washington and present it to the senate without delay. He did not know whether the president would go in person before the senate and ask approval of the historic agreement.

Some senators said Mr. Truman would like to have the charter given the required two-thirds senate approval before leaving for the big three meeting to talk about peace treaties. Prime Minister Churchill said today this meeting will be held before July 26.

In San Francisco, Chairman Connally (D-Tex.) of the committee was confident the senate would ratify, but expected committee hearings would require two or three weeks.

Suomi Lutherans
Elect Directors
At Duluth Session

Duluth, Minn., June 14 (AP)—The Suomi Lutheran Synod convention today named in today's sessions Jacob Harold, Waukegan, Ill., and Mrs. John Koski, Baraga, Mich., to the board of directors of the Synod Publishing House in Hancock, Mich. Emil Simonson and Charles Johnson, both of Astoria, Ore., were re-elected to the Astoria Publishing House board.

Also announced were the selections of Matt Kangas, Hancock, as Synod secretary for another year and the completion of the Suomi college board panel. The Rev. Victor Kuusisto, Virginia, Minn., Jacob Onkalo, South Range, Mich., and the Rev. Carl Tamminen, Ishpeming, Mich., were chosen for the college board.

WICKARD APPROVED

Washington, June 14 (AP)—Secretary of Agriculture Claude Wickard's nomination to become rural electrification administrator won top-heavy approval of the senate agriculture committee today. An 11-6 vote sent the nomination to the senate floor where confirmation may come tomorrow.

NEW WITNESSES
IN HOOPER CASE'Girl Friend' Of Hoodlum
To Testify In Murder
Conspiracy Trial

Battle Creek, Mich., June 14 (AP)—Jeanette Welker, attractive red-headed woman of about 30, was placed under \$5,000 bond today as a witness for the trial July 9 of four persons accused of conspiring to murder the late State Senator Warren G. Hooper.

Miss Welker, a River Rouge, Mich., waitress, was described as Harry Fleisher's "girl friend" by Special Prosecutor Kim Sigler, who said she had made "admissions concerning statements made to her by Harry Fleisher relating to facts charged in the conspiracy case."

Taken into custody at Detroit, the woman was brought here to the Calhoun circuit court, where Sigler asked Judge Blaine W. Hatch to put her under bond to assure her appearance as a witness and "for her own protection."

Harry Fleisher is a defendant in the Hooper murder conspiracy case, along with his brother Sammy; Mike Selik and Peter Mahoney. Except for Sammy Fleisher the defendants also are under indictment in Oakland county on a charge of robbery armed.

The Oakland county charge could result in a life prison term; maximum for conviction on the conspiracy charge is five years.

While Miss Welker was appearing in court here, Harry Fleisher posted \$25,000 bond at Pontiac for his release on the robbery charge.

Judge Hatch today set Monday afternoon for a hearing on Sigler's request that he endorse Miss Welker and nine other witnesses for the conspiracy trial. The nine are from Albion, Hooper's residence to which he was enroute from Lansing when he was shot to death in his automobile last January 11.

Suburbs Of Liuchow
And Ishan Reached
In Chinese Thrust

Chungking, June 14 (AP)—Chinese troops attacking on a broad front in south China have reached the suburbs of Liuchow and Ishan, key strongholds in the shrinking Japanese transcontinental corridor to southeast Asia, the high command announced today.

Enemy garrisons were being pounded in the northern suburbs of Liuchow, site of a former American air base in Kwangsi province, and also at Ishan, 43 miles to the west on the Kwei-yang (Kwei-chow)-Kwangsi railway.

American airmen aided the Chinese by strafing enemy lines from Liuchow northeastward to Hengyang. They destroyed or damaged 21 Japanese aircraft in the area, and also ranged over northern Honan province, shooting up rail installations.

Leading Financier,
Matthew Sloan Dies

New York, June 14 (AP)—Matthew S. Sloan, 63, president and chairman of the board of the Missouri-Kansas-Texas railroad, and one of the nation's leading financial figures, died unexpectedly today in a New York hospital.

Death was attributed to a heart attack.

A native of Mobile, Ala., Sloan spent the greater part of his career as an executive in the electric light and power industry with which he grew up.

Aussies Capture
Borneo Capital;
Japs Fall Back

BY SPENCER DAVIS

Manila, Friday, June 15 (AP)—Australian forces have captured the town of Brunei, capital of the Borneo protectorate of the same name, Gen. MacArthur announced today.

Other Australian elements, on Labuan Island, crossed the island and reached within a half-mile of the Timbalai air strip, the only one of three in the invasion area not yet occupied.

Medium and fighter bombers supporting the invasion of oil-rich Borneo raided Japanese bivouacs and supply areas along the coast northeastward to Jesselton, leaving large fires.

Light naval forces shelled and started fires at Miri, oil field district 75 miles southwest of the invasion sector around Brunei Bay.

The Australians, who invaded the bay district on Sunday, marched 16 miles through jungle-grown trails in reaching Brunei.

Australian infantry pressed ahead of their tanks, encountering only small-arms and machinegun fire.

Natives they met outside of Brunei reported the independent attacks on the Japanese by the fierce Dyaks, who blow poison darts through reed guns.

The Dyaks ambushed and killed 14 Japanese in the last two days, the natives said, using darts, swords, spears and crude bayonets attached to the dart guns.

Australians of the famed Ninth "Rats of Tobruk" division, whose capture of Brunei air strip was announced yesterday, had penetrated inland more than 15 miles since the June 10 landing at Brunei Bay.

They already were in the heart of the rubber plantation area and were pressing on towards the Tutong gateway to the Seria oil fields, 30 miles ahead. The Japanese have set the oil fields afire.

UNIONS OF AFL
AND CIO TANGLEReconversion Job Stirs
Up Old Dispute;
45 Men Quit

Detroit, June 14 (AP)—First tangible act in a long-threatened dispute between AFL and CIO over reconversion work in the automobile industry came today as 45 AFL workmen quit work on a Chrysler Corporation's Dodge truck plant.

A Chrysler spokesman said the AFL ordered its members off the job after warning the company that the addition to the truck plant never would be completed unless assurance was given now that AFL members would be given the work of making original installations of machinery and equipment in the building.

The AFL Building Trades Council recently warned Detroit area managers that unless it was assured that only AFL members would be used to complete a reconversion project, it would pull AFL workmen off such jobs.

Last week the United Automobile Workers (CIO) executive board meeting at Chicago demanded of automotive management that no outside AFL contractors and workers be called in on reconversion jobs until all available UAW-CIO manpower in the plants was utilized.

The UAW-CIO board proposed preferential hiring for UAW maintenance and construction workers and an upgrading program for production workers to augment the number of skilled workers.

Cannon is chairman of the house appropriations committee. He made his remarks in the house as he called up for consideration a bill cutting \$92,000,000 from current appropriations of war aircraft being switched from a two-front to one-front war basis.

The house approved the bill and sent it to the senate.

Cannon, whose committee passes on appropriations for fighting the war, is in frequent consultation with top military men. There was no immediate comment from the War or Navy departments on his remarks.

Berlin Destroyed,
Eisenhower Tells
Vengeful In Paris

BY JAMES M. LONG

Paris, June 14 (AP)—General Eisenhower received the official welcome of Paris today and told those who had a taste for vengeance that "Berlin is destroyed."

More than 1,000,000 cheering Parisians jammed the streets through which Eisenhower rode in triumph two days after becoming a freeman of the city of London.

He spoke in English—with a middle western accent as broad as his smile—in Hotel De Ville, the Paris city hall where he rode from the Arc De Triomphe.

Along the route cheering men, women and children hailed him as their liberator.

SEVENTH AND
THIRD DUE TO
STAY IN REICHPATTON HEADS FOR
EUROPE INSTEAD
OF TOKYO

Washington, June 14 (AP)—Gen. George S. Patton is going back to Europe and an occupation army assignment instead of heading forthwith for Tokyo.

Secretary of War Stimson announced the plan for the two-gun totting general today in designating his Third Army, along with the Seventh, for the job of occupying Germany.

Patton, tank expert and exponent of daring tactics, has been expressing a hope for a chance at the Japanese ever since he came home. As recently as yesterday, after conferences with Gen. George Marshall, chief of staff, Secretary Stimson and President Truman, Patton said he "had hopes" of getting to the Pacific. He flew in here yesterday from the Pacific coast.

Fifteenth May Stay
The War Department announcement that the fast-moving Third Army which Patton led across Europe, and the Seventh, also combat veterans, will stay in Germany, was in itself surprising. The Fifteenth Army had been generally considered as the probable occupation outfit.

Stimson said the Third and Seventh armies rather than the Fifteenth will be the occupation force, but reports from Europe said the Fifteenth will stay until December. Presumably, if it can be spared then, it will come home. Reports here were that it might be disbanded as an organized unit and its forces assigned to other groups.

The Seventh Army fought under the command of Lt. Gen. Alexander Patch, but he returned to the United States recently and was succeeded in command by Lt. Gen. Wade H. Haislip.

Presumably the Third and Seventh Army occupation forces will be considerably different in makeup from the combat outfits that slammed the Wehrmacht back.

Units Being Screened
Stimson, saying actual occupation forces at present consist only of headquarters forces of the two armies—about 1,000 men each from the Third and the Seventh—did not list the corps and divisions in the armies.

He said the units are being screened, apparently referring to the plan to reshuffle forces during redeployment and partial demobilization.

It has been announced that General Courtney Hodges will head his First Army in the Pacific. Dispatches from European headquarters today said Lt. Gen. William H. Simpson's Ninth Army will head home July 1, and the assumption was that it will go to the Japanese war, though perhaps in reorganized form.

LIONS TO MEET HERE SUNDAY

Annual Business Conference Scheduled At Sherman Hotel

The business and election meeting of District 10, Lions International, will be held at Escanaba Sunday, June 17, at the Sherman hotel, with the Escanaba Lions club as host to delegates from the 30 clubs in upper peninsula.

The usual convention of the Lions club has been abandoned this year because of wartime transportation restrictions and only business delegates will attend the Escanaba one-day meeting.

There will be registration of delegates at the hotel from 10 a. m. to two p. m. There is no registration fee. A noon luncheon will be held at 12:00 o'clock and the business meeting is scheduled for two o'clock at the hotel, with District Governor Ed. Bowers, of Pickford, presiding. There will be nomination and election of officers at this meeting.

Gust Asp, of the Escanaba club, is a candidate for the office of district governor.

The governor's banquet will be held at 6:30 o'clock.

SEVENTH AND THIRD DUE TO STAY IN REICH

Three American armies—one more than originally planned—will be kept in Germany at least until December, it was learned authoritatively today.

These armies are the Third, Seventh and Fifteenth. The Ninth army will be returned to the United States in July, or shortly thereafter.

News From Men In The Service

With a 12th AAF B-25 Mitchell Bomb Group in Italy—For extraordinary achievement in a bombing attack March 15, 1945, on a railway fill at Mori, Italy, 1st Lt. Leslie E. Maki, 24 of Rock, Mich., pilot of a 12th Air Force B-25 Mitchell bomber, has been awarded the Distinguished Flying Cross.

Emil J. Maki, father of Lieut. Maki, is a resident of Rock, Mich. Flying with his squadron of the 340th B-25 Mitchell bomb group in the Adriatic sector of Italy, the Rock pilot came overseas as a truck and tractor operator at Escanaba, Mich., before he enlisted in the army in September, 1942.

Lieutenant Maki flew 70 combat missions with his Mitchell squadron before the final drive of the American Fifth and British Eighth Armies brought complete and unconditional surrender of the German armies in Italy. His bomber squadron was one of the busiest units in the 12th Air Force during the final April offensive and effectively aided ground troops in forcing an early surrender.

Lieutenant Maki wears the Air Medal and the Distinguished Unit Badge and has four battle participation stars on his Mediterranean theater campaign ribbon.

Betty Steinert, 125 South 24th street, recently received a letter from her father, Petty Officer 2/c Earl Steinert of the Seabees, formerly of Iron Mountain, who is stationed in the Philippines. Before he was moved to the Philippines he was stationed in British West Indies. He finds the Philippines very hot and the work hard but he likes it.

Mr. and Mrs. John Leppanen of Rock received a telegram from their son, S/Sgt. George Leppanen, advising them that he has returned to the States and will be home soon. He served overseas for 24 months.

Pfc. Ray L. Erickson, son of Mr. and Mrs. Herman Erickson, 324 North Twelfth street, has informed his parents that he has been promoted to the rank of corporal. He has been stationed in the Philippines for the last three months and is doing important work with the Railroad Battalion. His unit has received five combat points for the work they have done thus far. Their job consists of repairing engines, which were left in bad running condition by the Japs, and to keep the railroads in running order. Cpl. Erickson's wife

Son-In-Law Shot After Kalamazoo Man Disappears

Kalamazoo, Mich., June 14 (AP)—The investigation into the disappearance of Knute Munther, 50-year old molder, took another turn today after a series of assaults and robberies on his son-in-law, George Patterson, 26, was climaxed by a shooting.

Patterson, at his mother's insistence, reported to sheriff's officers a week ago he had been slugged twice on the street and shot at once since Munther disappeared April 14, and his home had been robbed twice.

Then shortly before last midnight, Patterson was shot in the right shoulder with a .22 caliber weapon as he stepped from his automobile at his home. His condition was not believed serious.

Officers have been unable to determine the identity of the assailants in questioning Patterson.

Frank H. Nolden, Local Salesman, Dies Suddenly

Frank H. Nolden, 403 First avenue south, well known salesman of the Delta Hardware company, was found dead in his room at the Dickinson hotel in Iron Mountain at 3 o'clock Thursday afternoon. He was 54 years old.

Death was due to a heart attack, according to Coroner Frank Tondin of Iron Mountain. Hotel employees entered the room after Mr. Nolden had not come down for breakfast or lunch.

He was born in Escanaba, Sept. 9, 1890, and had resided here all his life. Shortly after his graduation from St. Joseph's high school in 1908, he entered the employ of the Delta Hardware company, and for almost thirty years traveled most of the Upper Peninsula territory.

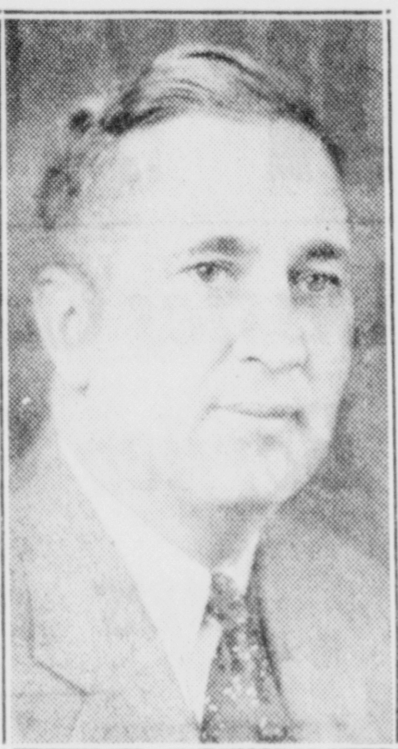

On April 18, 1919, he and the former Celeste Frechette were married, and the couple last April celebrated their silver wedding anniversary.

Prior to his marriage he served with the United States Army and was honorably discharged with the rank of corporal following one and one-half years of service overseas.

Mr. Nolden was a member of St. Joseph's church, St. Joseph's Holy Name Society, Knights of Columbus, the American Legion, and the Escanaba Council of the United Commercial Travelers.

Besides his widow and three children, Cpl. Betty of the WAC, Orlando, Fla.; Mary Adelle, a registered nurse of Milwaukee; and ART 2/c William, now serving with the U. S. Navy in the South Pacific, he is survived by five brothers and three sisters: John P., Joseph L., Louis J., and George M., all of Escanaba; Casper, Two Harbors, Minn.; Mrs. Caroline Holmes, Ferndale, Mich.; Mrs. Byron E. Andrews, Two Harbors, Minn.; and Mrs. Joseph Ruder, Minneapolis.

The body was taken to the Boyce funeral home. Funeral arrangements will be completed today.

Boys State Begins Government Study

East Lansing, June 14. (AP)—About 800 Michigan high school youths between 15½ and 17½ years of age began their practical lessons in government as members of the eighth annual Wolverine Boys' State at Michigan State college today.

The boys registered this morning and in the afternoon made nominations for the election of city officials tomorrow morning.

The boys were assigned as members of either the Trojan or Athenian political parties when they registered for the nine-day conference sponsored by the American Legion. The two political parties make up a mythical "49th state" which is composed of 16 cities and eight counties.

The youths also selected delegates to the political convention Friday afternoon. The nominees will be voted upon Saturday morning and those elected will be inaugurated Saturday evening.

Twenty-two counselors from Hillsdale, Albion, Kalamazoo and Michigan State colleges are working closely with the boys in carrying out the event.

CANNING SUGAR GETS RELEASE

Initial Allotment Of 5 Pounds Per Person Authorized

Issuance of canning sugar certificates will be resumed by Upper Peninsula ration boards Monday on the basis of five pounds per person, it has been announced by L. L. Farrell, OPA district director.

Later as additional sugar moves into the district a second issuance will be made for the balance of the sugar in this district's quota, probably seven additional pounds per person.

Birkett L. Williams, regional OPA administrator, announced this week in Cleveland that the issuance of canning sugar in Region III, including the Upper Peninsula of Michigan, would be on the estimated basis of eight pounds per person. Mr. Farrell reported here yesterday, however, that it probably will be possible to allocate a total of 12 pounds per person in two issuances. The sugar must be used solely for home canning purposes, however.

Only one application will be necessary to obtain the two allotments. Those persons who had applications on file when the "freeze" order was issued two weeks ago need not reapply.

Applications will be processed in the order received and certificates mailed to the applicant as rapidly as the office personnel can handle the job.

Before the applications were stopped, local boards were authorized to issue a maximum of 15 pounds of sugar per person for canning purposes, but the rate of issuance was greater than the amounts of sugar available.

Lean Years Ahead In Food Supplies

London, June 14. (AP)—World shortages in sugar, fats and meat will continue for the next one to four years, and liberated Europe can expect only "very limited" help from outside nations, British Food Minister J. J. Llewellyn told a 12-power food conference today.

"The crux of the problem is collection and distribution—not production," Llewellyn said.

"Unfortunately, 1945 is not the last of the lean years.

"The sugar shortage will last one or two more years. Oil and fats will not be in full supply until the Far Eastern producing areas have been fully liberated and rehabilitated. Livestock products will not be in ample supply for three or four years."

Llewellyn spoke at a meeting of representatives of Britain, the United States, Canada, France, Denmark, Belgium, Luxembourg, Holland, Norway, Yugoslavia, Czechoslovakia and Greece.

Wood Tick Menace Under Study In Upper Peninsula

The menace of the ever-increasing wood tick in the Upper Peninsula is being made the subject of a special study by the Michigan department of conservation, and a biologist and two other department men will be in Escanaba next week to take up their research in this area.

They are Joseph Stephenson, assistant chief of the department's game division; Farley Tubbs, assistant to the head of the department's game area managers; and Don Douglass, game division biologist.

They have already worked through Schoolcraft, Marquette, Dickinson, Baraga, Ontonagon and Iron counties. When they come to Escanaba early next week they will study the wood ticks to be found in Delta county, Menominee county and the south half of Dickinson county. Alger county also may be covered from the Escanaba headquarters.

The big question the department seeks to solve is whether the wood tick is a carrier of Rocky Mountain spotted fever and tularemia or rabbit fever. The department also would like to know what effect the tick is having on game. It believes that a heavy infestation of ticks can kill young rabbits and grouse.

There is also the question of control. Thousands of fishermen, hunters and vacationists come to Michigan annually. Wood ticks would, literally, get in their hair. They also bite. This condition might create anything but enthusiasm among visitors and cause them to avoid returning another time.

Howard Eldred, game area manager working out of the Escanaba headquarters office of the conservation department, has for the past two weeks been collecting wood ticks in the Menominee county area. He collected about 200 ticks from five sample areas in that county, and his statement is that he believes the Menominee river area is the most heavily infested of any county in the Upper Peninsula.

The ticks are placed in small glass phials, one for each of the five areas. These ticks, together with a report on conditions where the ticks were found, will be turned over to the department men from Lansing when they come here.

Eldred is also making a tick collection from Delta county. He has found them in the southern part of the county—in fact he has received reports of ticks in all parts of the county except the Garden and Stonington Peninsulas.

His work in collecting the ticks will continue all through the summer, and game area managers in other sections of the Upper Peninsula will do the same.

The department became concerned when reports were received that wood ticks were being discovered in Ontonagon and other northern counties. They have been abundant for several years in the Menominee River country. It is believed they are spreading northward from Wisconsin, largely following the lowlands bordering rivers. None have been found on the high, dry plains areas, Eldred reported.

COUNTY BOARD MEETS JUNE 25

Tax Allocation Board Will Also Convene On That Date

The Delta county board of supervisors will meet in annual equalization session the morning of Monday, June 25, in the courthouse in Escanaba for the purpose of establishing equalized valuations for county tax purposes among governmental units of the county.

Supervisor O. J. Thorsen of wells, chairman of the county board, and other township supervisors, have indicated when attending meetings of the county tax allocation commission that they expect valuations will increase throughout the county.

County Clerk J. Theodore Ohlen yesterday said that letters have been mailed to secretaries of township school districts, and to township boards, notifying them of a meeting of the tax allocation commission to be held at 7:30 p. m. in the courthouse following the county board meeting. The meeting was originally scheduled for June 18, but has been postponed to the date of the board meeting so that supervisor members of the tax group will not have to make a special trip to Escanaba for the meeting.

At the meeting of the tax allocation commission a final hearing will be held on the tentative tax rates set for townships and township school districts. At that time the commission will hear any protests on the tentative rates previously announced.

The tax allocation body, prior to setting township and rural school tax rates, established the tax rates for the county and the city schools of Escanaba and Gladstone. This rate reduced the county rate by nine-tenths of a mill from the rate of last year and added that amount to the school rate.

The county finance committee has appealed to the state tax commission for a review of the rate with the hope that it would be changed to provide the county with a higher rate. So far there has been no reply to the letter requesting the appeal, the county clerk reported yesterday.

Heavy Rainfall Recorded Here In Half Hour Period

A total of .65 of an inch of rainfall was recorded in Escanaba in the half hour period from 12:50 p. m. to 1:20 p. m. yesterday, Henry Hathaway, local meteorologist reported.

The downpour was in two installments. The first was at 10 minutes before one o'clock and lasted about 10 minutes during which .18 of an inch of rain was recorded. There was a brief interlude after which the rain descended with increased fury. A total of .47 of an inch was recorded during the second period. Preceding the rain, there was a high wind but no damage was reported by the storm in this area. The area west and north of Escanaba, however, was severely hit by the rain and wind, according to information received here.

The high temperature in Escanaba yesterday was 70 degrees.

Capt. Demaray Retires After 27 Years With State Police

Retirement on July 1 of Capt. Ora E. Demaray, Marquette, after 27 years of service with the Michigan state police, was announced yesterday at East Lansing by Commissioner Oscar G. Olander, head of the organization.

Capt. Demaray, who has been Upper Peninsula district commander for a long period, is a native of Bergland. He joined the state police on May 18, 1918, as a trooper and most of his service has been in the Upper Peninsula. He was promoted to the rank of corporal on June 1, 1920, and became a sergeant on Dec. 15, 1920. On Oct. 1, 1924, he was promoted to the rank of lieutenant and became a captain on Dec. 15, 1928.

As an officer he served at Cadillac, Alpena and Paw Paw. He was transferred to the Upper Peninsula as district commander from Paw Paw.

Capt. Demaray became eligible for retirement in 1943, at the end of his twenty-fifth year of service. Sgt. Carl W. Robertson, Marquette, who has been assistant district commander under Capt. Demaray, will become acting district commander July 1.

The following personnel changes, affecting Upper Peninsula state police posts, were announced yesterday:

Trooper Ray McConnell transferred from Wakefield to Ypsilanti.

Trooper Antony Skaggio, transferred from New Buffalo to Wakefield.

Trooper Arthur Long transferred from Marquette to Brighton.

Trooper Joseph Massaglia transferred from Flat Rock to Marquette.

Cornoral Graham C. Peebles, of the Marquette district headquarters, assigned to the Munising subpost.

Briefly Told

Rode on Bumper—Harold Anderson, three-year-old son of Mr. and Mrs. Lars Anderson, 1311 Stephenson avenue, escaped serious injury on Monday evening when the child rode on the front bumper of the car from the family home. The father, who was driving the car drove the car four blocks before a driver of another car notified him of the child's presence.

Townsend Club—A meeting of the Escanaba Townsend Club No. One will be held at the Escanaba city hall tonight at eight o'clock. All members are urgently requested by the officers to attend as business of vital importance will be considered at this meeting.

Also Assisted—Norman Burdick and Sim Wellman, Escanaba city employees who assisted in supervision of poison in the Wednesday rat campaign, were not listed.

Dots and Dashes help run the railroad!

...big news in 1855

Yesterday and Tomorrow
A Story of Transportation

THE year 1855 was significant in the annals of western railroading. In a history of early transportation, the report was brief of an event of tremendous importance. "This year," it read, "a telegraph line was built alongside the road between Chicago and Freeport and the trains were operated by it."

Thus was the telegraph first used in the west as an aid in train operations. Its use brought new safety and efficiency to train movements ... was vital in the rapid expansion of railroads and the development of communities in the west.

The union of telegraph and rail operation is taken for granted today. But there were skeptics, back in the 50s, who thought messages in the form of electrical impulses would never run a railroad!

CHICAGO and NORTH WESTERN SYSTEM

IN the 97-year growth of the Chicago and North Western System the new has constantly replaced the old. "5400" Freight Diesels, recently placed in service and illustrated here, are examples. These new power plants are capable of pulling a train of loaded freight cars 500 miles without a stop for fuel. They are geared for safe speeds up to 70 miles an hour! In the peace days to come "North Western" will continue its policy of progress, providing better and better transportation service.

The War Lords Rule

FACED with the growing threat of Allied military might aimed at the throat of Japan, Premier Kantaro Suzuki has grabbed unprecedented dictatorial power. Yet with the fall of Okinawa, expected soon, Suzuki's government may be forced to resign, just as his predecessors. Tojo with the fall of Saipan, and Koiso with the loss of Iwo Jima.

The latest turn of governmental events in Japan undoubtedly gives the military clique even greater authority than it has ever possessed before, providing that Japan has utterly failed to learn a lesson from the catastrophe that befell Germany under similar conditions.

Under the supreme dictatorial rule of Adolf Hitler, Germany elected a last ditch, bitter-end fight in defense of the homeland, with the inevitable result that most of Germany was destroyed. The same fate is in store for Japan, with growing evidence that the Japanese will do nothing to avert that disaster.

Although dictatorial authority has been turned over specifically to the Suzuki government, the right to rule by decree actually is granted to the militarists of which Suzuki is only a "front man." The resignation of Suzuki would serve only to transfer this authority to someone else whom the military rulers would select as the fall guy for later defeats. In this manner the war lords are able to retain the authority they desire and still preserve the old Japanese custom of chopping off the heads, figuratively, of those rulers who lose face in defeat.

All of this adds up to an extremely bleak future for the people of Japan. As Adolf Hitler did in Germany, the militarists will cling to power to the very last, even to the point of bringing untold hardships and wholesale slaughter to the people of Nippon.

Any hope of an early peace in the Pacific is now definitely gone as a result of this surrender of the rights of the people of Japan to the diabolical Japanese who live by the sword.

Expansion at Tech

PLANS to establish a forest industries institute at the Michigan College of Mining and Technology at Houghton have been announced by Dr. Grover C. Dillman, president of the college.

Besides conducting research and extension work, the institute will set up a school, offering three 12-week terms of semi-technical training. Just what courses will be offered has not been announced.

For years, the Houghton school has been serving the mining industry of the Upper Peninsula and other regions. Its graduates have become mining executives throughout the nation and even in foreign lands. Having served the mining industry well, it now is turning its attention to the forest products industries of this region.

The Upper Peninsula is getting much attention from the state educational institutions. The University of Michigan recently announced plans to improve its summer forestry camp at Golden Lake near Iron River, and Michigan State College long has been turning out foresters that have become active in our lumbering industry.

The Michigan College of Mining and Technology Institute will be right on the scene, and consequently will have an opportunity to do some constructive work. We believe the institute would do well to work closely with the Michigan Planning commission and Upper Peninsula Development Bureau in the program designed to bring new industries to this region. Its research work can be directed toward finding new uses for wood. And it can train men and women for our new industries.

Dutch Tulips Coming

N O BETTER proof of the privation the people of Holland underwent under Nazi occupation is the fact that they were obliged to eat their prized tulip bulbs to prevent starvation.

After the Nazi conquest of Holland, exports of the famous Dutch tulips to this country stopped. For years, flower lovers in this country depended upon these importations of about 75,000,000 tulip bulbs annually. Domestic production was only about one-tenth of this number, so when imports were cut off the American producers were faced with a greater demand than they could fill. As a result, prices doubled and trebled.

American tulip bulb growers in lower Michigan, Oregon, Washington, Long Island and a few other areas have succeeded in increasing their output despite a shortage of manpower. Introduction of ingenious labor-saving machinery in this country has helped considerably, and likely will be used to a greater extent after the war.

The American bulb growing industry is determined to retain the advantage it has acquired during the wartime cessation of

imports. It expects that Holland will endeavor to recapture some of its lost trade, but believes there will be enough business for all. Most of the growers in this country are of Dutch descent and they apparently are willing that their mother country have an opportunity to rebuild its bulb industry.

Smells of Oil

THERE is an odor of oil in the questions involved in the seven eastern Mediterranean countries represented in the Arab League, because within them lie great oil reserves, or the pipelines, shipping ports or water routes from which the petroleum products start on their way to western Europe. Geographically these countries are important because they are on the land routes from Europe to the Suez and Egypt.

England has a great interest in the Suez because of her trade with India, but she also has an interest in Syria and Lebanon because of their proximity to the English island, Cyprus, less than 150 miles from the mainland coast. Cyprus is important to England as a naval base for the eastern Mediterranean.

The seven Arab countries include Syria, Lebanon, Iraq, Saudi Arabia, Egypt, Trans-Jordan and Yemen. Syria and Lebanon are particularly important because of their location on the eastern end of the Mediterranean, their seaports and the west - side railroad that connects Europe by way of Turkey with the Near East and the Suez.

Arabia and Iraq contain the principal oil reserves of the area. Arabia is the largest of the countries of Asia in the Arab League. It is three times the size of Texas but, because of the desert country, has a population of only about seven persons per square mile, or a total of about 5,000,000. Oil from Arabia and Iraq must reach the Mediterranean by overland pipelines, or by tankers from the gulf of Persia or the Red sea through the Suez canal.

Check Your Brakes!

T HE recent campaign to check automobile brakes has revealed that many cars are traveling on the highways and streets of America without effective safety equipment.

Startling results were shown in some areas on the first few days of the check with as many as 30 per cent of the automobiles inspected failing to meet the requirements. On the other hand, in states and communities where regular vehicle inspection is required, the percentage of failures was low. In the District of Columbia, for example, only 2.7 per cent of the cars checked had inadequate brakes. Massachusetts and New Jersey reported 3.8 per cent and 8.9 per cent, respectively. These low percentages, of course, helped to bring down the national average. For the nation the average was 16.6 per cent failing of the cars checked.

Automobiles are getting older on the public highways due to the wartime cessation of manufacturing motor vehicles for private use. It is all the more important, consequently, to keep the brakes and other safety equipment in good shape.

The weather was kept in cold storage all last winter and, in some sections, apparently hasn't gotten over it.

A revolving house, to catch the sun's rays, may come after the war. It'll be nice when we can all go around together.

As the conquest of Okinawa reached its last stage, Admiral Nimitz said "Well done to the Yanks. How are YOU doing—on War Bonds?"

Take My Word For It . . . Frank Colby

WHAT IS THE ORIGIN?

Q. The recent Nazi threat to go underground and become "were-wolves" has aroused the curiosity of my class. Are werewolves so called from the belief that they are people who "were" wolves?

A. The "were" of werewolf has no connection with "were," the past tense plural of "was." The original word was the Anglo-Saxon werewolf, "manwolf."

The ancient superstition that certain persons have the power to transform themselves into wolves, in order to satisfy their craving for human flesh, is still widespread throughout the world. And it was quite in character for Hitler's cut-throats to apply the horrid name to themselves.

In the first choice pronunciation, "were" rhymes with "fear," as: WEE-er-wolf. The second choice, and perhaps the more frequently heard, is: WUR-wolf, the first syllable rhyming with "fur, purr."

Q. Is the "o" long (oh) in mediocrity, and what is the origin of the word?

A. The "o" is short as in "dock." Say: mee-dee-OCK-ri-tee.

The word comes from the Latin medius, "middle; halfway," plus ocris, "rugged peak." A mediocre person, then, is literally one who is halfway up a mountain. Hence, figuratively, a middling degree of excellence; undistinguished; ordinary.

Note that the "o" of mediocre is long, thus: MEE-dee-oh-ker.

World Events Analyzed

BY MARQUIS CHILDS

Washington—So far as public hopes and expectations go, we are now in a stage of the war with Japan comparable to the hopeful glow that prevailed in the summer of 1943 with respect to Germany.

Bombing was to do the job against the Nazis. New devices had been worked out which would permit mass bombing over the overcast during the fall and winter.

Top airmen, in active direction of the air assault on Germany, said confidently that the Germans could not hold out through the winter. The Nazis had been told by their propagandists that the bombing would cease with bad weather; they would give in as the rain of high explosives continued.

—FANATICS WON OUT—

D-Day came and the gruelling battle for Normandy. General Eisenhower predicted the war in Europe would end in 1944. He thought, as he has often said privately, that the Germans would be governed by reason. The German general staff, knowing defeat was inevitable, tried in vain to assassinate Hitler and end the war. But the fanatics won out and the war continued.

Now the tonnage of bombs being dropped on Japan is mounting rapidly. It will increase at a fantastic rate until the volume falling on those narrow little islands far exceeds anything unleashed over Germany.

Nor are the Japs prepared, even to the extent the Germans were, to take this punishment. Intelligence reports indicate that only a negligible part of their industry has been put under ground. Like the Germans, they waited too long.

The destruction in Japan and in the industrial areas of the neighboring empire will far exceed the devastation wrought in Germany. If Germany is finished as a modern nation—that is what General Eisenhower said in an interview last week—then certainly Japan's doom is at hand.

But will the Nips crack under this mounting threat? General Joseph W. Stilwell, old Vinegar Joe, chief of the army ground forces and long familiar with the Far East, says no. In an interview on Okinawa, he said the United States would need an invasion force of 500,000 men and that the war against Japan would last at least two years more.

Moreover, he went on to say that even after the fall of Tokyo it may be necessary to fight a long war against the Japs in Manchuria and China. This last is, to put it mildly, a grim prospect. To move into the interior of China and Manchuria would mean a war in terms of years, but of decades. It would mean a prolonged drain on our manpower and our resources that might well become intolerable.

—EXPERTS OFTEN WRONG—

Our military and diplomatic experts have been wrong more often than right on the Pacific war. They have run the whole gamut of predictions from, in the pre-Pearl Harbor phase, the assurance that the Japanese were inferior fighters without modern techniques to the present pessimistic phase.

They can be wrong again. An unofficial expert who has been right about a great many things during the past six years predicts that the Japs will give up this year. In a recent series of articles William R. Mathews, editor of the Arizona Daily Star, analyzes the differences between Germany and Japan and comes out with some interesting conclusions.

Mathews points out that Hitler was a revolutionary dictator with all the fanatic zeal of a revolutionary behind him. In contrast, Japan is governed by a multiple autocracy has puffed up the emperor myth to give itself greater than human sanction. "The Japanese autocracy is a committee," Mathews wrote. "It has the will of a committee, not of a single man. The members of a committee, in order to make the committee function, must constantly compromise with one another. Compromise in war too often implies wrong decisions—or delayed decisions."

We were treacherously attacked by Japan. We will go on to conquer the Japanese homeland no matter how long it takes. That is the national will. But that does not prevent us from trying to look realistically at what is happening behind the scene of Japanese censorship.

Gracie Allen Says--

Jack Benny, Edgar Bergen, and Fibber McGee and Molly notwithstanding, the Tokyo radio still has the funniest programs on the air. They have just announced that it is still not too late for the United States to surrender.

I guess, according to Japanese reasoning, the victorious Germans have imprisoned the Russians in Berlin, the Americans are retreating in the direction of Tokyo and the Japanese fleet is holding a victory celebration at the bottom of the ocean.

Tokyo radio has also announced that they were organizing bow-and-arrow and Ju-Jitsu units to fight against us. George thinks we will really have something to worry about when they send those old Japanese vaudeville tumblers against us. But I've got it figured out. All our boys have to do is start applauding. Then when the Japs leap up to take their bows—bang!

MEET MR. MARTIN—George Victor Martin, the successful novelist who claims distinction because he never finished high school, is permitting Nahma to become acquainted with him. And Nahma is taking Mr. Martin as casually as another train-load of logs.

Dunathan by purchase of a fishermen's tarpaper shanty near the beach east of town. There he retires to digest the belt-swallowing hotel meals and think. Perhaps he may even write.

Nahma and Mr. Martin met for the first time the summer of 1941, when he was instructor in fiction writing at the Nahma Vacation School. The school was a casualty of the war, but Mr. Martin is past the draft age.

RESISTS HOLLYWOOD—How and when Mr. Martin writes is an intriguing puzzle. That he does write, and well, is conclusively proved by the publication of fiction works from the tender to the facetious. It is presumed that he receives money for his work, else how could any man purchase an old fish shanty and occasionally stand for a round at the bar?

Good authority has it that he is being lured by the siren Hollywood to write for the movies, but his resistance is as colossal as a cinema epic. Only an author who never finished high school would have the business acumen to enjoy Nahma while the movie company bids triple and double. From his vantage point in the Nahma hotel Mr. Martin wages a successful battle against those who would have him prostitute his art.

HIS PAST—Mr. Martin's past is pleasantly freckled from exposure to life.

According to George he has been a house painter, shipping clerk, printer, stevedore and an advertising manager. He was also an amateur boxer in and about his native Chicago, where he rolled up a string of eighteen successive knockouts in the ring.

He also (it says here) studied music for concert appearances. The concert stage lost him before he achieved what might be termed a moderate success. Turning from art to music, he played the piano professionally at roadhouses and cafes from Chicago to Miami Beach.

Highlight of this phase of his life was when he accompanied the sultry-voiced Helen Morgan, who made musical history by torching her way through the songs while sitting on the piano.

In 1941 at the Nahma Vacation School George Victor Martin had to be coaxed to the piano, and there played reluctantly, changing key and tempo to the chagrin of the gals who sought to emulate La Morgan. Only resemblance between them and the late torch singer was that they also sat on the piano.

NOW IN PRODUCTION—Martin took to fiction writing as some men take to drink—either to drown the bitter past or raise hopes for the future. The type-writer has been kind to him, and the fiction he has produced has at times approached the term literature.

In this category is "For Our Vines Have Tender Grapes." The story is as tender as the title. It has had a steadily growing recognition but it took Metro-Goldwyn-

10 Years Ago—1935

Millions of dollars of damage was done by a flood which is sweeping down from Austin, Texas. The flood has swept from central to southwest Texas and continues unchecked.

Eighty-four students of Manistique high school, the largest class in the history of the school, attended the baccalaureate service yesterday. Rev. S. T. Bottrell delivered the address to the graduating class.

James Mitchell of Gladstone was a member of the Michigan State Teacher's college at Marquette. He is a graduate in chemistry.

William Groesbeck, a student at Five names are added to the list of grade school pupils dental honor roll. They are, at the Franklin, Jean Ann Nichols, at the Barr, Jack Moline and Louise Walker and Gloria Lee, and at the Jefferson, Laurel Paulson.

20 Years Ago—1925
In the rioting in Canton which has been going on several days it is feared that some Americans may have been harmed although state department officials have kept quiet about the fighting.

Herman Mielche served as toastmaster at the Senior banquet which was given Monday night at Peterson's Tea Room. Short toasts were given by Irene Dotsch, Garard Belanger, Harold Cass and Almon Arnold.

Craig Lawrence has returned from Iowa State College at Ames where he is a student to spend the vacation here.

A graduation was held at the Franklin school Tuesday when 156 students graduated from the eighth grade. They received diplomas which entitled them to start at the high school the next year.

Mayer studios to give it the final flip over the hurdle.

For MGM is now putting the story into pictures, with its latest wonder-child-star Marjorie O'Brien, its old standby Edward G. Robinson and Little Jackie Jenkins in leading roles. As you probably have guessed by this time, the story has to do with kids. The film should be out this summer and success is staring Mr. Martin in the face. Hence the siren call to go to Hollywood and rub shoulders with producers, actors and big money.

A NEW DRESS—Grosset & Dunlap, publishers, are planning a classic touch to the lending-library idea of publishing movie script editions of popular stories. Seems to be that once a novel makes a movie hit it can have a rebirth with a new clientele.

For the reincarnation of "Our Vines Have Tender Grapes" the introduction is being written by Arnold Gingrich, editor of Esquire, and personal friend of Martin.

"Without the movie, this book could hardly have been rescued from the oblivion which engulfed it on its appearance five years ago. The few of us who read it when it first came out tried, many times since and always without avail, to get this neglected little classic back into active print," Gingrich writes.

FOR THE FUTURE—Gingrich has an abounding confidence in Martin. This is something not of yesterday, but of five years ago when he first read "Vines". He wrote of the book at that time: "The most delightful surprise package of the last decade, and the most original contribution to American letters since Saroyan."

This confidence may at times seem to have been misplaced. For Martin has written for better or for worse, from short fiction for the Chicago Daily News, more studied efforts for Esquire, and now another novel "Tumble Weed Across My Field." This last is being brought out soon by Henry Holt and Company, New York.

One wonders if perhaps the future may hold for Nahma the distinction of a place in a Martin classic.

THE LYONS DEN

—By Leonard Lyons

(Leonard Lyons is in Europe. His guest columnist today is the distinguished author and opera-lover, Vincent Sheean.)

IF I HAD THE METROPOLITAN OPERA . . .

Do you remember Mr. Schickelgruber's 1937 speech? The one containing the eloquent passage beginning "If I had the Ural Mountains?"

Well, the poor lad isn't going to get the Ural Mountains, as we all know by now. His position in that respect is rather like mine with respect to the Metropolitan Opera Company. It is the desire of the moth for the star, of the day for the night; it is also a distinct pang in the neck.

Everybody has these little unsatisfied and unsatisfiable ambitions. Mine is to have control, full and unquestioned control, of the Metropolitan Opera Company for a few years. By the time I got through with it, it would either be a living institution able to stand the comparison with Moscow, Berlin and Rome, or it would be definitely proved, once and for all, that there is no room for opera in our national life.

I would start by discharging the entire ballet and chorus. Some of the latter might be rehired after passing an examination. It has been no good for years. If I could not get a decent ballet I would do without; opera is not dependent upon these trained fleas.

There should be two orchestras. It is impossible to give repertoire opera with the same jaded band playing all day and all night.

Then, of course, there should be capable singers. There are a few in the company now; these would remain, but they would be less conspicuous than they are now because I would bring in the great singers of the whole world to sing here. For many years now I have wondered why the Metropolitan waits until singers are past their prime to bring them to New York; long before the war supplied an excuse, this was the settled policy.

I would, of course, get some new scenery and costumes and make a bonfire of almost everything the house now possesses. Specifically, I would rest and restudy such abused masterpieces as Aida and Carmen; I have always wanted to get Puccini to do a "Tales of Hoffmann" with the true fantasy which that little work deserves and never gets.

Once I got a decent company together I would make the conductor absolute sovereign over the performance. If the prompter, who at present has the loudest voice in the company, could not be induced to stop beating time, I would strap his wrists to his sides before each performance. Any singer who attempted to conduct a performance, as we have all seen Madame Flagstaff do in the past, and as Mr. Pinza did only the other night, would be discharged.

With regard to the American singers, I would dispense with radio and publicity nonsense and make them earn their way as other singers do. This would automatically rule out most of the blockheaded, asthmatic little girls with Hollywood dresses and parrot voices who have been persuaded by their mammas, local chambers of commerce and dishonest teachers that they can sing tragic heroines.

Certain well-established American talents, such as those of Miss Moore and Mr. Tibbett, should be guided even more carefully, and not permitted to squander their resources just because it happens to sell a few tickets at the box office.

Keep a pot of chives in the kitchen and use them in salads, sprinkled on tomato soup, or whipped into mashed potatoes.

Iron spun-rayon dresses when almost dry, and press them on the wrong side to prevent marks from the iron and a shiny surface.

The Washington Merry-Go-Round

BY DREW PEARSON

(Col. R. S. Allen now on active service)

Washington—There is a lot more than meets the eye behind the arrest of two state department officials and one naval officer on a charge of passing out secret documents to magazine writers.

Chief factor behind it is the intense, cut-throat rivalry between two Chinese factions—Chiang Kai-shek's war lords in the south of China and the so-called Chinese Communists (actually an Agrarian party) in the north.

Mixed up in all this is the action of the Chinese secret service operating undercover in the USA against anyone opposed to Chiang Kai-shek. Also involved is the prima donna temperament of a very temperamental U. S. ambassador; and finally the issue of whether the United States will get itself caught between Chinese political factions the same way it has between Polish factions.

It so happens that all three of the young far eastern experts arrested in the navy and state department believe ardently that the USA is backing the wrong horse in China. They feel that the northern Chinese government is much more representative of the Chinese people, has done more fighting against Japan, and that Chiang Kai-shek is chiefly an imposter prisoner of his own southern war lords.

Moreover, these three are not alone in this belief. General Stilwell emphatically believed it and was ousted from China as a result. John R. Davies, Secretary of the American Embassy, also believed it and was ousted by Ambassador Patrick J. Hurley after a bitter verbal battle. Also, John Service, another Secretary of Embassy, believed it, was fired out of China by Hurley, and has now been arrested by the state department.

Finally, U. S. military men, solely concerned with winning the war quickly, feel that the northern Chinese can be a vital important factor in defeating Japan on the vast mainland in China.

—COWBOY VS. FARMER—

It was this question which led to one of the most spectacular feuds in the recent annals of American diplomacy between handsome Ambassador Hurley, the ex-Oklahoma oil man and cowpuncher, and hard-bitten Gen. Al Wedemeyer, former Nebraska farm boy, now U. S. Commander in Chungking. Nothing much like it could happen any place but in China—unless it be in Washington.

When General Wedemeyer first arrived in Chungking, he and Hurley appeared to be excellent friends. They took adjoining rooms in a big Chinese mansion, with a connecting bathroom. Three times a day they ate together. Wedemeyer told Hurley he would show him all his dispatches to Washington if Hurley would do the same. Hurley promised, and complete co-operation seemed assured.

"I don't know anything about the fine points of diplomacy," General Wedemeyer said, "but I do know a square-shooter when I see one and I am sure we can work together."

Some time thereafter, Wedemeyer was inspecting the Chinese front at Kunming when he got an urgent message from his chief of staff asking him to return to Chungking. He advised Wedemeyer that a hot cable awaited him from Chief of Staff Marshall in Washington "for Wedemeyer's eyes only."

—WHITE HOUSE HEAT—

Wedemeyer raced back to Chungking, was flabbergasted to read a blistering cable from General Marshall bawling him out for letting members of his staff sabotage the ambassador's important diplomatic mission in China.

Marshall also enclosed a copy of a cable the ambassador had sent the White House, accusing Wedemeyer's officers of double-crossing him.

Wedemeyer immediately went to Hurley and demanded an explanation. He wanted to know what the ambassador meant and why he hadn't carried out his promise to show him all telegrams and cooperate completely. Hurley turned his back.

"I am the ambassador here," he replied and walked away.

General Wedemeyer then discovered that General William Donovan, head of strategic services, was due in China and his representatives had been anxious to determine the possibilities of working with the northern Chinese against Japan. Therefore, Wedemeyer's Chief of Staff, Gen. Robert B. McClure, had agreed to send two U. S. officers to north China to examine north Chinese cooperation.

While they were away, Foreign Minister T. V. Soong complained to Hurley about their trip. He said this was upsetting Chungking's relation with the north Chinese. Whereupon Hurley sent a stinging cable to President Roosevelt accusing Wedemeyer's officers of undercutting him. This was what caused Wedemeyer to get the rebuke from General Marshall.

However, Wedemeyer replied to Marshall explaining the whole situation and stating that Hurley knew in advance about the northern trip of the two U. S. officers. Marshall took the cable to the White House. Roosevelt read it, sighed wearily. "Pat is Pat," he said, "and there's nothing you can do about him."

MALARIA CASES ARE REPORTED

Outbreak Of Disease In Oregon Traced To S. Pacific

BY JANE STAFFORD
Science Service Medical Writer
Chicago—A 12-year-old girl and a grown woman living in a rural section of Oregon have contracted malaria from a soldier returned from the Southwest Pacific, Dr. S. B. Osgood, health officer of Josephine county, Oregon, reports in the forthcoming issue of the Journal of the American Medical Association here.

These are the only cases of malaria occurring in this rural Oregon area as far back as medical records go. Dr. Osgood states. Nevertheless, Dr. M. E. Cortell, of Grants Pass, Ore., was so alert that the diagnosis of malaria was made in the first case within two hours of the time the little girl came to his office.

She lived in an unscreened house which was only partially finished and lacked panes in several of the windows. The veteran, her great-uncle who had contracted malaria in Australia, lived in a tent about 50 feet from her house for about two weeks before she started having chills and fever. Mosquitoes were plentiful and on examination were found to be the malaria-spreading variety. Existence of this kind of mosquitoes in this rural Oregon area had not previously even been suspected.

The second case was a neighbor whose house was well within the mosquito range of the returned soldier's tent.

A logging partner of the returned soldier who shared the tent may also have contracted malaria. He has returned to Texas and so far Dr. Osgood has been unable to get in touch with him.

Mulchahey Returns To Upper Peninsula

R. G. Mulchahey is returning to the Upper Peninsula of Michigan to resume his position as Children's Consultant for the Children's Division of the State Department of Social Welfare. He formerly held this position but relinquished it when he enlisted in the United States Navy in 1942. This is the second time Mulchahey has served in the Armed Forces of the United States, since he is a veteran of the first World War and was honorably discharged at the end of his previous service.

He is being released under the provision permitting the discharge of men past 42 years of age. Following his enlistment he was assigned to duty with the Navy Relief Society of the Ninth Naval District and was stationed at the Navy Relief Society Headquarters at the U. S. Naval Training Center, Great Lakes, Ill. In February of 1944 a branch office of the Navy Relief Society was opened in Chicago to serve the metropolitan area of that city, and since that time Mulchahey has been in charge of the Chicago office.

Upon his discharge he received a letter of appreciation and commendation from Vice-Admiral A. S. Carpenter, Commandant of the Ninth Naval District for his work with the Navy Relief Society.

Dr. Wilbur Menke Talks on Public Health Program

Marquette—The Michigan state health department is no bureau of medicine, and public health work is not to be confused with a state medicine program. Dr. Wilbur Menke, Powers, state deputy commissioner of health in the Upper Peninsula, said in his talk at the meeting of St. Luke's hospital Auxiliary, Tuesday afternoon, in the Wallace Nurses residence.

The speaker emphasized that the health department does not attempt to dictate but rather serves to assist in solving the local public health problems through consultation with the community's health departments and agencies.

Discussing the plan of organization of public health as a whole, he gave in detail the functioning of the department in problems in the Upper Peninsula.

T. B. Control No. 1 Problem

Rating control of tuberculosis as an outstanding problem for solution, since there is a high incidence of the disease in the area, he said it is hoped to give special attention to the attitude and mental aspects associated with patients suffering from the disease.

is the son of Dr. and Mrs. A. J. Hughes, Gladstone, Route 1. This is the first grandchild of the latter couple.

Make Dad Comfortable This Summer

Whether Dad fishes, plays golf, or stays around the house this summer, he'll enjoy some light weight sport clothes.

Slack Pants

Perhaps Dad would like a pair of cool slack pants and a sport shirt to wear on warm days. Season's best colors.

Loafer Coats

Pep Dad up with a comfortable loafer coat. Ours are beautifully tailored of wool two-tones and plaids.

Swim Trunks

Surprise Dad with the new boxer style swim trunks in the popular Guatemala designs, or in plain colors in wool, cotton gabardine or rayon.

Accessories

All-elastic suspenders and garters will rate high with Dad. Belts in plain or tooled leather make most acceptable gifts.

Father's Day is June 18th.

SIXTY VETERANS GET SCHOOLING

Veterans Affairs Office
Busy As Discharges
Grow In Number

Sixty veterans from the Delta county area are now in universities or vocational training schools and the requests of 10 others for schooling training are now being processed in the Office of Veterans Affairs here, according to Gerald Cleary, secretary.

Veterans from Delta county are now attending, under the provisions of the G. I. Bill of Rights, University of Michigan, Detroit University, Marquette University at Milwaukee, Northwestern Uni-

versity at Chicago, and Northern Michigan College of Education at Marquette in accounting, law, dentistry, science and art classes. Besides this a number of veterans are taking vocational training courses, including electrical work, plumbing, wood working, shoe work and one veteran is an apprentice learning the trade of making artificial limbs in Detroit.

Altogether a little over 400 men from Delta county have been discharged from service since the start of the war. Of this total about 200 were discharged because they were over-age, or to return to jobs in essential industry. None in this group were in overseas service.

The remaining number, approximately 200, were discharged because of disabilities incurred in, or aggravated by military service. Of this 200 about 75 were combat casualty cases. Included are those who suffered severe burns, loss

of an eye, arm or leg, or serious gunshot wounds. Some of these wounds are in the head, and a few have shrapnel lodged so near the brain the metal cannot be removed. A few have malaria, and one is tubercular.

Fifteen of these combat cases have been rehospitalized after returning home. This additional treatment is provided at Veterans Hospital in Milwaukee.

When men are discharged from service the State Office of Veterans Affairs at Lansing is notified by the state Selective Service. The state office notifies the veteran that he will find a Veterans Affairs office in his county and requests him to contact that office on any of his problems, such as hospitalization benefits, compensation, reemployment, loans under the G. I. Bill of Rights, and vocational training.

In all cases of veterans seeking reemployment, the veteran is referred to the U. S. Employment Service by the Office of Veterans Affairs.

Another service of the Office of Veterans Affairs is aid and assistance to the next of kin of men killed in service. Insurance matters, death compensation claims, back pay claims, gratuity claims, return of personal effects and other services are provided the next of kin.

On request of the next of kin the bodies of men killed in service will be returned to the United States for burial, accompanied by military escort. About 35 requests have been filed with the War Department from this county for the return of the bodies of deceased soldiers, and the number is expected to increase. There is no cost to relatives of the deceased.

"Onion" came from the Latin word "unio" which means a "single large pearl."

Four Instructors Promoted At Tech

Houghton—The Michigan College of Mining and Technology Board of Control this week promoted four instructors to assistant professors. They are Stanley Johnson and John Mathiesen, history and geography; Edwin Niemi, mechanical engineering; and Carl Schjonberg, electrical engineering. The first two are alumni of Wisconsin, and Mathiesen is an alumnus of Princeton also. Prof. Niemi graduated from Hancock high school and the Michigan College of Mining and Technology; Prof. Schjonberg from Ishpeming high school and MCMT.

For a new peppy flavor put one tablespoon of horseradish into each three cups of cooked navy or lima beans the next time that they are cooked in a casserole.

CITY PLANNING DRIVE ON RATS
Red Squill Obtained; Boy Scouts To Help In Campaign
A campaign against rats is to be carried out in the city of Gladstone, City Manager H. J. Henricks announces.
A quantity of rat bait of poison has been procured by the city and will be distributed free to all persons desiring it.
Before the distribution is made a general drive is to be made with the cooperation of the Boy Scouts. Scouts will contact various homes in a given area and learn where, if any rats, exist in the neighborhood. They will then obtain the red squill and place it where it will do the most good.
The poison is put up in tiny envelopes and need not be handled other than in the envelopes. Each bears the warning: "Ready to Use. Do Not Open. Just Place This Packet Where a Rat Can Find It."
Assurance has been given by the manufacturers of the poison that it will not kill other animals such as cats and dogs.

HONESTLY, I DON'T SEE HOW YOU KEEP YOUR DISHCLOTH SO CLEAN-LOOKING!

IT'S EASY, I USE CLOROX TO BLEACH IT, AND MAKE IT SANITARY, TOO!

WOMEN marvel at how clean-looking and fresh-smelling Clorox makes even the mustiest, grimmest dishcloths. But more important, Clorox makes them hygienically clean... an added safeguard to health. Clorox has intensified germicidal action; it disinfects, deodorizes, removes stains. Use Clorox regularly in routine cleansing of tile, enamel, porcelain, linoleum and wood surfaces for a safer, brighter home.

Bathroom Sanitation! Don't be satisfied simply because your bathroom "looks" clean. Make it Clorox-Clean... sanitary. Clorox combats germ dangers... helps avoid risk of infection.

MEAT RATIONSOperations At Woods
Camps Threatened
Is Claim

Men who do the heavy labor of felling and trimming trees and providing the wood products so vital in our war and peace time economy, must have good substantial food to keep going. Meat is an essential part of this diet. Under present conditions, the lack of meat is working a severe hardship and threatening production, woods operators claim.

A number of these operators presented their problem to the Manistique-Schoolcraft Chamber of Commerce at its meeting Wednesday evening and the chamber turned sent strongly worded telegrams to Senators Arthur Vandenberg, Homer Ferguson, Congressman Fred Bradley and the OPA headquarters at Washington, D. C.

The telegram follows: "Request your immediate consideration of meat supplies which borders on desperation in Manistique area. We have several wood processing plants which are approximately 90 per cent on war production. These camps will be forced to close within next few weeks unless present OPA quotas are revised to permit local farmers to dispose of livestock locally. Because present unfavorable OPA ceiling price local cattle supplies will not be shipped to large packing centers. Our present distressed situation would be remedied if this local supply could be made available. Detailed letter follows.

"J. Mauritz Carlson, Secretary, Manistique-Schoolcraft Chamber of Commerce."

Miss Betty Jane Grondine, daughter of Edward Grondine, North Second street, became the bride of Earl Manley of Miami, Fla., Saturday afternoon at 3 o'clock with Justice W. G. Stephens officiating.

The couple was attended by Mrs. Norma Hamel, sister of the bride, and Willard Rockburg.

The bride wore a becoming street length dress of white lace with white accessories and her corsage was of red roses and snapdragons. The bridesmaid wore a pink dress with white accessories and wore a corsage similar to that of the bride.

Following the ceremony a wedding dinner was served at the home of the bride's father.

Mr. and Mrs. Manley left later for Milwaukee where the bridegroom is employed.

Out-of-town guests at the wedding included: Mr. and Mrs. Merle Gregory of Escanaba, Mr. and Mrs. Eugene Kordyn of Neenah, Wis., Alvin Ottenger and Frederick Krieger of Waukesha, Wis., and Willard Rockburg of Gladstone.

Thirty-three Manistique Girl Scouts have thus far signified their intention to attend at least a week this summer at Timber Trail, the official Girl Scout camp, located half way between Wetmore and Nahma Junction on the new county highway.

This was revealed by Mrs. John Girvin, who has charge of registration in Manistique. She states that accommodations for others who wish to enroll are still available, but that it would be well to make reservations at an early date.

The camp will open July 7 and remain open for six weeks. The first week will be reserved for the camp staff to put the camp in readiness and to become acquainted with the routine to be followed.

More than \$500 was raised in the past year by people interested in the camp project and this added fund has enabled the committee to purchase the camp grounds and install much necessary equipment.

The camp is now on a sound financial footing and as a result the committee is able to provide improved facilities and a well qualified staff to take charge.

For Girl Scouts a regular charge of \$10 per week is made. A charge of \$15 is made for girls who are not members of the organization or who are members but live outside of the local district.

The campers, girls from 10 to 18 years of age, live in tents and Adirondack shacks and enjoy under competent supervision, pioneer camping, swimming, rowing, games and music.

A registered nurse is a member of the camp staff and a doctor is on call. Drinking water and swimming water are tested regularly. All water front activities are carried on under close supervision of competent Red Cross life savers, thus assuring every precaution for the health and safety of the campers.

Members of the local Girl Scout committee sponsoring the Timber Trail camp are Mrs. C. S. Slining, Mrs. Kenneth Van Eyck and Mrs. John Girvin. They will be glad to give further information concerning the camp.

C. OF C. PLANS
BANQUET JUNE 28Dr. F. O. Logie, Of
Iron Mountain To
Be Guest Speaker

A dinner meeting to be held at the church parlors of the First Methodist church on the evening of Friday, June 28, was arranged for at the regular meeting of the Manistique-Schoolcraft Chamber of Commerce at its regular session Wednesday evening.

Dr. F. O. Logie, of Iron Mountain, past president of the chamber of commerce of that city and present member of its executive board, will be guest speaker for the evening. He will enlarge on the subject: "The Need of a Chamber of Commerce."

Numerous other matters were discussed at Wednesday's meeting, chief among them being consideration of a proposal for a recreation map of the region, city beautification and the coming hearing of the Au Train canal proposal to be held at Escanaba June 27.

Joseph L. Hierman, county agent, reported that there would be made available, if some local agency would sponsor its printing and distribution, a recreational survey map which would show the location of streams, lakes, highways, along with the fish and game possibilities of the areas and game possibilities of the areas and game possibilities of the areas.

Such a survey, Mr. Hierman said, would be provided through the state department of agriculture which would also provide the necessary plats. Printing and distribution of these maps, however, would have to be undertaken by local interested parties, Mr. Hierman said. While no definite action was taken by the chamber committee, it was generally understood that something definitely would be undertaken in the near future to bring about the completion of the project.

Russell Watson extended the offer of 200 trees to be planted in the city at places to be selected by the proper committee. The offer was accepted and a committee consisting of Omer Schuster, Russell Watson, Walter Moon, I. J. McLaughlin and J. L. Hierman, was named to make a survey. The trees will be planted some time next fall.

Fred Helman, president of the chamber of commerce, was named delegate to the Au Train canal hearing at Escanaba.

Also discussed at the meeting was the advisability of a survey to determine the dollars and cents value of the tourist business to the city of Manistique. The procedure would be to make a checkup of the business in the city during some period when there was no tourist business in the area and another when the tourist rush was at its height. The months of April and July were rated the best months to use for such a comparison.

**Action Also Urged
On Common Crime**
Rio De Janeiro, (AP)—A recommendation that the United Nations now preparing for the judgment of war criminals in Europe, also prepare to curb post-war common criminals has been made from Brazil by a veteran police technician of more than 20 years' international experience.

J. A. Adler, Vienna-born director of the International Bureau of Vienna until the Nazis took Austria in 1938 and at present a resident of Brazil has addressed the recommendation to the embassies and legations of all the United Nations in Rio de Janeiro, pointing out that World War I was followed by a wave of crime in disorganized Europe.

Action to forestall the activities of international forgers, confidence men and racketeers particularly is urged, Adler says such activities may quickly spread from Europe to the Americans unless promptly curbed.

Adler's interest in crime detection, prevention and suppression was aroused when, as a junior officer of the Austrian army returning home after the last war, he noted crime thriving on post-war confusion.

**High School Students
Bought Many Bonds**
Manistique high school students purchased heavily of bonds and stamps in the school year just ended, a recent checkup reveals.

A grand total of \$5,072.20 was purchased by students in 1944-45. The banner month for the year was May when \$1,021.05 in bonds and stamps were purchased.

DOG BITES MUST
BE REPORTEDHealth Department Urges
Prompt Action In
Matter

Attention is called by Dr. C. E. Lockwood, Alger-Schoolcraft health physician, to the importance of reporting promptly, all cases of dog bites in the community.

Rabies is more or less prevalent during the summer months in the lower peninsula, says Dr. Lockwood, and often a quarantine is imposed during the time tourists come to the upper peninsula taking their dogs with them. For that reason there is always a possibility of infection being spread.

Any dog or animal that has bitten a person shall be held in confinement for a period of at least 10 days from the date the person was bitten. If during the period of confinement the animal dies or shows signs of rabies, the person bitten should be given prophylactic treatment with rabies vaccine.

It is highly important, says Dr. Lockwood, that the dog or animal should be under quarantine and observation and not killed. If the animal is killed at the outset there is no way of knowing whether such animal is infected or not and the only safe procedure consists of giving the rabies vaccine, which requires a daily injection for 14 to 21 days.

**Local Justice Court
Business Was Heavy
During May Month**
W. G. Stephens, justice of the peace, on making a checkup of the receipts of his office during the month of May found that they amounted to \$829, which, he believes the record for any one month at that office.

Of that total \$214 enriched the city treasury. This amount came from fines imposed for minor criminal actions and money paid for judgments in civil actions.

The \$615 turned over to the county treasury came from fines imposed in criminal actions tried and settled in his court.

Judge Stephens believes that this is a record for his court. It is the month's record for the seven-year he has been in office.

CAN'T KEEP
GRANDMA IN
HER CHAIR

She's as Lively as a Youngster—
Now her Backache is better

Many sufferers relieve nagging backache quickly, once they discover that the real cause of their trouble may be tired kidneys. The kidneys are Nature's chief way of taking the excess acids and waste out of the blood. They help most people pass about 3 pints a day.

When disorder of kidney function permits poisonous matter to remain in your blood, it may cause nagging backache, rheumatic pains, leg pains, loss of pep and energy, getting up at night, swelling, puffiness under the eyes, headaches and dizziness. Frequent or scanty passages with smarting and burning sometimes shows there is something wrong with your kidneys or bladder.

Don't wait! Ask your druggist for Doan's Pills, used successfully by millions for over 40 years. They give happy relief and will help the 15 million who today take the most poisonous waste from your blood. Get Doan's Pills.

Slugging Bucs Capture Chicago Twin Bill, 5-2 And 6-5

Pittsburgh, June 14 (AP)—The Pittsburgh Pirates slugged their way into first place in the National League by defeating the Chicago Cubs twice today, 5 to 2, and 6 to 5, before 12,880 elated fans.

The Pirates had a half-game lead over Brooklyn whose win over the Giants meantime brought them into second place and dropped New York to third.

The Pirates took the first game on four hits. They scored three runs in the first inning on only one hit. Pete Coscarart's two-run homer in the sixth put the game on ice.

In the nightcap Sewell opened the Pirate half of the third inning with a double and Lee Handley clubbed a two-run homer to start the scoring. Hits by John Barrett and Bob Elliott, coupled with an infield out, added two more runs.

The Bucs knocked in three more tallies in the sixth with Babe Dahlgren's triple providing the pivotal punch.

First game: Chicago... 000 001 100—2 6 1 Pittsburgh... 300 002 000—5 4 1 Chipman, Erickson, Prim and Gillespie; Butcher and Lopez.

Second game: Chicago... 000 020 300—5 7 0 Pittsburgh... 003 003 000—6 13 1 Stewart, Derringer and Williams, Rice Livingston; Rescigno, Sewell and Salkeld.

SIXTH GIANT SETBACK

Brooklyn, June 14 (AP)—The New York Giants surrendered their National League lead today when the Brooklyn Dodgers rallied for two runs in the last of the ninth to grab a 5-4 decision and their sixth straight victory.

It was the sixth successive setback for the Giants, marking the fifth loss in a row for Mel Ott's ace, Bill Voiselle. Only once before on April 23, when Chicago took over for 24 hours had New York been out of first place.

Frenchy Bordagaray's pinch-double in the ninth following a walk to John Antonio and Eddie Basinski's sacrifice bunt tied up the game and Eddie Stanky's fourth straight single counted Frenchy with the decisive run. New York... 200 110 000—4 11 1 Brooklyn... 201 000 002—5 10 0 Voiselle and Lombardi; King, Davis and Dantonio.

Fishing Improves In Upper Peninsula

Lansing, June 14 (AP)—Good news for anglers came from the State Conservation Department today in its weekly report on anticipated week-end fishing conditions.

Throughout the Upper Peninsula warmer weather and the return of most streams to normal levels has improved the outlook for trout fishing, pike fishing has been good throughout the week, although perch fishing is poor on the bays.

The reports from field officers in the northern counties of the Lower Peninsula also indicate that fishing of all types will be improved on lakes and streams over the weekend.

In the southern counties of the Lower Peninsula all fishing is only poor to fair, although water levels are returning to normal and prospects are excellent for the opening of the bass season June 25.

Lt. (jg) Jim Rouman, former Escanaba high school basketball coach, on leave of absence for military duty, got quite a thrill recently when his ship was anchored behind a small island. I thought maybe the folks in and around Escanaba would like to know that the Escanaba Victory is doing her share way out here.

"That was really a big day for me out here. It has been over three weeks since we heard from home and just then the mail orderly climbed up the Jacob's ladder with a big grin on his face and I knew he's picked up some mail for us. After passing out the mail to the crew, I turned to my own. Found some snapshots of my wife and daughter. That was a real pleasant surprise. Then the Press story about Donnie Photenhaver. He was safe, thank God. I knew he'd make it. Guess the prayers the day I heard from home, that Donnie was missing didn't hurt any. Funny how a fellow thinks of those things."

Sgt. Joe Smith Gets Lowdown On World In Sports

BY WHITNEY MARTIN

New York, June 12 (AP)—Sgt. Joe Smith, U. S. Army.

Dear Joe: Hey, what's keeping you, anyway? I figured you'd be back here by now. Are all those points of yours dull, or pointing in the wrong direction, or did you lose them in a crap game? Anyway, I'll keep looking for you and it'll be pretty nice to see you, but don't try to pull rank on me because you're a sergeant and I'm a private citizen.

Just in case you didn't hear about it, I'll tell you that a nag named Hoop, Jr., won the Kentucky Derby with Pot O'Luck second and Darby Dieppe third. I thought Jeep would be in there somewhere, but maybe that was asking too much, although it's the first thing I've found one of those jitterbugs couldn't do.

The race was run in the mud, but it was muddy for all of them so none has an alibi. I suppose the Hoop will be favorite in the Preakness next Saturday, and he should win in a walk, to coin a phrase, if I'm not counterfeiting.

Yanks Lost Lindell
The baseball race is getting closer than raindrops. The Giants have been taking reducing exercises, I guess, and have lost out of that fat lead they piled up earlier. Their pitchers just aren't, it seems. Maybe I told you Mel Ott fished Bill Voiselle \$500 for the wrong pitch not long ago. I wonder what he's doing the other guys, as all of the pitches seem to be wrong.

That Dave Ferris of the Red Sox finally lost a game. The Yankees beat him after he'd won something like eight straight. I didn't expect him to go through undefeated though.

The Yankees have lost Johnny Lindell, and that might make quite a difference in them. They weren't too sure of squeezing into the pennant with him, and without him I don't think they can make it. I understand Red Ruffing, who just got out of the Army, may join them, but he's 40, fat, and out of practice.

Your Brooklyn Bums still are right up there near the top, and they should be investigated, as they have no business up there at all. I don't have to tell you where Philadelphia is in the National League. I guess the Phils will have to organize some bleacher managers to manage the grandstand managers.

Byron Nelson still is winning golf tournaments. He was 20 strokes under par in winning a Canadian event over the weekend. Think I'll try one of those miniature courses myself some day.

Well, Joe, remember, the first one's on me when I see you. After that you're on your own. I can just see you now walking in the door with your big ears flapping in the breeze and that crooked grin on your homely pan. I'm watching for you. Your Pal—Whitney.

HABERDASHERY

The fish try and seize them at every opportunity. That is why an imitation dragon fly is good to throw at a bass or trout, but they are hard to cast and many of us do not use them.

We tie them of bucktail, on large hooks for bass, and the bass seize them eagerly. Our imitations are fat in the body and wide of wing. We should use them more than we do for crappies and trout. I have often used and imitated them in small sizes, hooks as small as size 6 and size 4. The wind resistance is great, they twist your leader and you cannot cast them accurately. Yet every fisherman should try them in his lake or stream fishing for they surely bring results.

The All-Star baseball game is out, as far as the United States is concerned, but there are growing indications that the mid-summer baseball classic will be played after all—in Europe, probably in Nuremberg stadium, where Hitler used to shout defiance to the world. If played, the game would be sometime in July, probably during the period July 8-July 12 previously allotted for the classic. The game would be strictly a GI show, with a free gate for 120,000 soldiers, and with the USO footing the bills.

Bing Crosby who was balked by Judge Landis in efforts to buy the Boston Braves in 1940, is still anxious to get into big league baseball. Landis turned thumbs down on a Crosby ownership of a big league club because of the crooner's connection with horse racing. It is indicated that Crosby would be willing to dispose of his horse racing interests and the Del Mar track, if necessary, in order to get into major league baseball.

Eddie Mayo tripped to center with one away in the third but died there as Roy Cullenbine popped out and Rudy York grounded.

St. Louis took the lead at 2-1 in the fourth when Stephens' first homer followed Byrnes' pass. George McQuinn then singled but Trout avoided further trouble.

Triple Ties Score
Trout's 400-foot triple over Pete Gray's head with one out in the third helped tie the score. Trout scoring after Gray made a diving catch of Joe Hoover's deep fly.

Gray fell on his left shoulder in making the play and retired from the game.

Neither club had a man past first base the rest of the way until Stephens smacked his second homer in the ninth. The two circuit swats gave Stephens a total of three in Detroit this season, all off Trout.

The Tigers, taking three out of four from Chicago and two of three games against the Browns in the home stay, left after the game for Chicago, where they open a five-game series tomorrow under the lights. Frank (Stubby) Gehringer was Detroit's probable pitcher.

SOX SWEEP SERIES
Chicago, June 14 (AP)—Orval Grove made up for a shaky start today to both pitch and bat the White Sox to a 4-3 victory over Cleveland and a sweep of the three game series.

Grove gave Cleveland a three-run start, but then settled down to stop the Indians' rest of the way and drive in the winning run himself with a double against the wall in left-center field in the sixth inning.

Return Of Greenberg
Zooms Pennant Hopes For Top Spot Tiges

BY JACK HAND
New York, June 14 (AP)—Detroit's pennant hopes zoomed today as Capt. Henry (Hank) Greenberg received his honorable discharge from the army and announced his future plans "including playing baseball for the Tigers."

The slugging first baseman-outfielder who commanded a reported \$55,000 salary when he went into service was mustered out at Fort Dix, N. J., under the army's demobilization program after almost four years service. He returned to his New York home last night.

There was no definite word tonight on how soon Greenberg would rejoin the Tigers, who open a series tomorrow in Chicago but General Manager Jack Zeller has given assurance there will be no trouble over a contract. The slugger had not contacted the club but is entitled to his old salary, for at least 60 days.

Despite the Tigers' lofty position in the standings, hitting has been their one weak spot and Greenberg will be welcomed into the Detroit lineup.

Greenberg arrived at Fort Dix yesterday after serving overseas for about two years in the China-Burma-India theater. He was commanding officer of the headquarters and headquarters squadron of the bombardment wing in China before his return to the United States.

Inducted May 7, 1941 in the first weeks of the season, Greenberg was discharged under the over-23-years provision later the same year but re-enlisted in December. In August 1942 he was commissioned a second lieutenant in the air corps after his graduation from officer candidate's school in Miami Beach, Fla.

The Detroit star, a native New Yorker, was 34 years old last Jan. 1 and played with the Tigers from 1933 until his induction. In 1938 he hit 58 home runs, a department in which he led the league in 1938 and 1940 and was tied in 1935. He was most valuable player in the league in 1935 and 1940 played in three World Series and two All-Star games and had a lifetime major league batting average of .325.

TWO HOMERS BEAT DETROIT

Dizzy Gives Only Three Other Hits But Goes Down To Defeat

BY FRANK KENESSON

Detroit, June 14 (AP)—Vern Stephens, belting Brownie shortstop, clubbed out two mighty homers, driving in all three runs today as St. Louis took a 3 to 2 verdict from the league leading Detroit Tigers.

Stephens, who leads the league with ten circuit blows, pounded one into the upper right field seats in the fourth inning, scoring back of Milt Byrne who had walked. The other, into the left field pavilion with nobody on base, broke a 2-all tie in the ninth.

Trout Goes Good
Aside from Stephens' two clouts the Browns had only three hits off Paul (Dizzy) Trout of the Tigers but sent him to his fifth defeat against as many wins.

Sig Jakucki, who scattered nine Detroit hits, won his fourth victory.

Pete Gray, one-armed Brownie outfielder, retired from the game with a shoulder injury when he fell making a diving catch in the fifth inning.

The defeat left the Tigers a half game ahead of the second place New York Yankees, who were idle.

The Tigers broke the scoring ice in the second inning, getting one run when Jim Outlaw singled off Mark Christman's glove and Bob Maier doubled to right center. Maier took third on Bob Swift's infield out but Trout left him there by fouling out to end the inning.

Eddie Mayo tripped to center with one away in the third but died there as Roy Cullenbine popped out and Rudy York grounded.

Freckles And His Friends

WELL, LARD, YOU'RE NO BALL OF FIRE IN LATIN!

NO WONDER! WHO COULD BE INSPIRED BY THE TEACHER YOU GAVE ME! HOW ABOUT OUT-FITTING ME WITH A STREAMLINED TEACHER LIKE THOSE CINCINNATI PIGEONS!

NO SOONER SAID THAN DONE!

MY MY! PRESS MAH SHOE LACES! DO I LOVE LATIN!

TO THE CLASSICS STUDENTS OF THE UNIVERSITY OF CINCINNATI—THANKS A MILLION! I LIKE LATIN, TOO, AND LARD'S MARKS OUGHT TO PICK UP AS THE RESULT OF YOUR SWEET SUGGESTION!

Red Ryder

I'M RIDIN' ON TO GET THOSE CROOKS WHO KIDNAPED YOU, BETH!

BUT YOU'RE WOUNDED, RED! YOU SHOULDN'T!

THEY STOLE THAT EXPRESS SHIPMENT OF MONEY THAT TH' DUCKS IS RESPONSIBLE FOR! IF THEY GET AWAY, SHE LOSES HER RANCH!

RED CANNOT GO ALONE! I'M GOIN' TO HELP! GIDDAP!

Boots And Her Buddies

POPPING A BOTTLE AT A HUNDRED YARDS! THAT'S GOOD SHOOTING, MISTER!

YOU KNOW, YOU DON'T SEEM LIKE SUCH A BAD SORT, WITH YOUR FEATHERS DOWN

SORRY I WAS RUDE TO YOU, STRANGER! I'VE BEEN KIND OF JUMPY LATELY! RUGGLES IS MY NAME!

SHAKE! MINE'S BROWN! JOHN BROWN

HOW ABOUT GIVING WITH SOME DRINKING WATER?

RIGHT, MR. BROWN!

BANG

BLONDIE, CAN YOU REMOVE BUCKSHOT WITH YOUR EYEBROW TWEEZERS?

Our Boarding House

NOW THAT PAPA HOOPLE IS HERE, TWO OF YOU SPARROWS WILL HAVE TO RIDE TANDEM ON ONE ROOST—I HOPE YOU DON'T MIND!

OH, NO, WE LIKE CROWDS! BUT THIS ZOO IS GETTING SO FULL OF HOOPLE SPECIMENS THAT PRETTY SOON WE'LL HAVE TO LINE UP FOR A NAP IN THE LAUNDRY HAMPER!

I'LL SNORE A DUEL WITH MACK AND THE OLD GENT CAN HAVE MY ROOM! THAT CELLS SO HOT IT WOULD CRISP AN ARAB'S CAMEL!

WHAT! THEY'VE MADE YOU ONLY A SECOND CLASS MACHINIST'S MATE, WHEN YOU LEARNED TH' TRADE HERE IN THIS SHOP UNDER ME? WHY, YOU WERE ONE OF TH' BEST MACHINISTS I EVER TURNED OUT—WHAT'S WRONG WITH THEM PEOPLE?

KINDA RUFFLES THE OL' MAN'S DIGNITY QUITE A BIT—ONE OF HIS BEST PUPILS NOT BEIN' MADE A ADMIRAL IN SIX MONTHS!

THAT'S WHY TH' GUY AIN'T SAYIN' NOthin'! HE WAS HERE TEN YEARS AN' THEY NEVER EVEN THOUGHT OF MAKIN' HIM A FOREMAN!
